

VISION CONTROL VC500

MOBILE CONTROL PANEL FOR AGILIOS AND ROVION SYSTEMS

- ✓ Suitable for daylight and construction sites
- ✓ Simple data exchange
- ✓ Recordings according to current standards

VISIONCONTROL VC500

YOUR ADDED VALUE FOR MOBILE USE

With the VC500 you have the latest generation of our mobile control panels supporting you in daily use. You have the complete inspection process via touchscreen under control, operate the crawler, comment on the video and create standard reports at the push of a button. You can send your inspection reports incl. inclination and diameter measurements via WIFI directly to the cloud platform WinCan Web*. Via internet browser your documentation will be available within a short time.
